AKSHAY KUMAR

Celebrating the unsung heroes with the world's first plumber song

Plumbers are an integral part of our industry and therefore, deserve recognition for the same. So, we at Prince, decided to pay a special tribute to our plumber friends we fondly refer to as '**Mitra**'.

Therefore, the first Plumber Anthem ever -

*Ji ji kar ke baat karo,
hum toh plumber hain...*

The song first originally released on the occasion of **World Plumbing Day (2018)** in Hindi, got an overwhelming response the moment it went online. The fact that it instantly became a popular caller tune in the plumber community made it even more special. And this year, it's touching many more plumbers across the nation with its various regional versions. We hope this Zero Defect chain keeps growing with every passing year.

ZERO DEFECT CHOICE

Overview

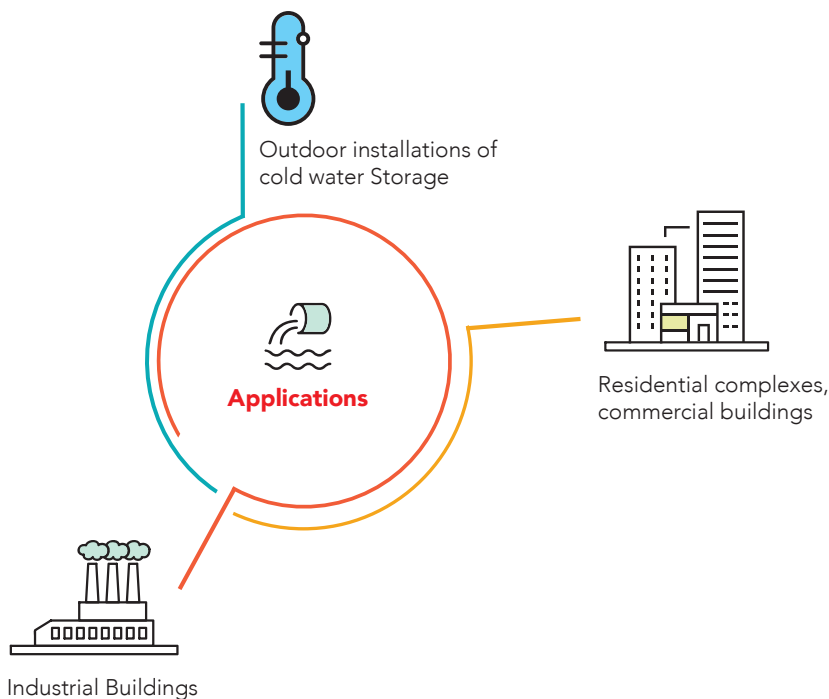

Pipes brings its mastery of PVC to a new segment: Prince Storefit Water Tanks as part of the company's introductory range of overhead water storage solutions. The products are manufactured using the roto moulding process and finds extensive use for installation at home, offices, factories, commercial places and hospitals that need large volumes of hygienic water storages. Designed with 3 layer insulation- Outer white layer for UV resistance, Insulated black middle layer: maintains water temperature lower than ambient temperature, Inner food grade polymer layer: prevents water contamination. Storefit - Paani Ka Bank comes with a 5 year warranty.

Product range

- **Tanks:** 500 to 10,000 Litres

Standards

Features and benefits

- **UV Stabilization:** UV stabilized material prevents degradation and ensures no environmental stress, cracking, chalking or loss in the physical properties of the tank.
- **Food Grade:** Safe for drinking
- **Built Stronger:** Extra ribs for enhanced durability. Reduced bulging with full tank. Minimized chances of bursting under pressure.
- **Easy Installation:** Provision of multiple plumbing inlets and outlets for the ease of connection.
- **Threaded Lid:** Enhances the life of cover. Keeps water free from dust and flies.
- **Air Ventilator:** Built-in ventilator allows water to breathe (to natural oxygen level) and stay fresh. They also help to avoid deformations.
- **UV Protection Cover:** Additional black cover below the lid to prevent entering of UV rays from the top opening of tank.
- **Antimicrobial:** Inner layer added with silver based antimicrobial agent which prevents bacterial growth and keeps water fresh.
